

FENZI BELGIUM AMONG THE BEST COMPANIES ON THE UK MARKET ACCORDING TO THE GOLDEN BRIDGE AWARDS

Fenzi's Vilvoorde branch is one of the 8 finalists in the Golden Bridge Trade & Export Awards 2015, conferred each year by the Chamber of Commerce of Belgium and Luxembourg in the UK and by the British Chamber of Commerce in Belgium.

Now in its 19th year, the Golden Bridge Trade & Export Awards is an important event that celebrates the highest-achieving companies in Belgium and Luxembourg, and the UK in terms of exports and trading in both markets. These are UK companies that have earned a position with their products on the Belgian and Luxembourg markets and vice versa, i.e. Luxembourg and Belgian companies that have scored excellent results in the United Kingdom.

The competition spans all sectors of production, both in the field of services as well as in a strictly manufacturing category, with the finalists being judged on their high standards of innovation, international strategies, financial performance, and their ability to penetrate these growing, dynamic markets.

Fenzi was selected by a jury of sponsors, previous winners and specialists, from among more than 200 companies, passing strict selection criteria and positioning itself among the 8 finalists. The shortlisted companies were presented at the award-giving ceremony in London on 26 November.

*"Making it to the finals – said Fenzi CEO **Alessandro Fenzi** – was a huge achievement for Fenzi Belgium, the local management team and all the group. It illustrates once again how much Fenzi products have to offer in terms of innovation and market penetration, demonstrating the great professionalism of all the team at Vilvoorde. These are important strengths when competing in a particularly demanding market that is careful about the quality of products and services like the UK market, which Fenzi dedicates special attention to. And this is why all the team is really enthusing over the result".*
